SUMMARY

Sophomore at Sri Krishna College of Technology (SKCT) with a fervent drive for creative design roles in the tech industry. Committed to mastering React, SQL, DSA, Java, C++, MongoDB, while leveraging Agile methodologies for efficient project management. Eager to contribute innovative ideas and expertise to future design projects.

PROJECTS

Namma Kovai

📅 11/2023 - 12/2023

Mini Project.

"Namma Kovai Project serves as a comprehensive online platform offering detailed insights into Coimbatore City, providing a one-stop destination for information on various aspects such as demographics, infrastructure, local businesses, and community initiatives. Users can access a wealth of data and resources to explore and engage with the vibrant fabric of the city."

SamadhanMitra

📅 12/2023

"Samadhanmitra's website is a dedicated platform catering to legal services, including advocates, notaries, and arbitrators. I developed a fully functional section on notary services, ensuring seamless accessibility and comprehensive assistance for clients seeking notarial expertise"

Mini Projects

📅 Date period

"I have successfully developed an online renovation portal, and request quotes. Additionally, I have created an online pharmacy booking system, enabling users to schedule appointments, order prescriptions, and receive medications with ease and efficiency."
